Hony. Consul General of St. Vincent & Grenadines
in the Republic of India
Director, AIC-EMPI
Co-Founder & Director,
AP Aerospace & Defence Electronics Park
(A JV of AP Govt. & EMPI Innovation Park)

We are a group of Professionals and Academicians who believe that with passage of time our educational system has got heavily slanted towards scoring marks to somehow pass the examination. While it encourages a few to come up in life, the potential of vast majority of intelligent minds is surpassed. Spotting the potential young minds and building capabilities worthy of a winner in life, thus becoming the *raison d'être* for our launching an ever growing ensemble of excellence - Faculty, Trainees and Students, operating in a well-tuned 24X7 fully residential environment. With focus on individual grooming, appropriate stress has been laid on learning processes that are found in our heritage in Swami Vivekananda's thoughts but somehow lost in the past in our country's educational system- particularly in higher education.

The blueprint of the institution which was laid by the then Vice-President, Mr. Pankaj Saran, the current President, under the guidance of industry legends Chairman Emeritus ITC Ltd., Mr. Ajit N. Haksar and Mr. Gurnam Saran and pioneering educationist and legend Col. Satsangi, VSM, Chairman, CSKM; has been identifying, nurturing and enriching giftedness in individuals through continuous innovative pedagogy and distinctly different Gurukul like learning environment. This was envisioned to bring out creative, entrepreneurial and managerial capabilities keeping in sharp focus the need to promote meritorious, innovative, enterprising and intellectual potential of our youth and provide equal opportunity for all. By incorporating Innovation & Entrepreneurship dimension, it focusses on grooming the youth to become citizens of the emerging new world that are not catered to by traditional education. The psychological and attitudinal transformations are facilitated through team processes and 'learning through living'.

EMPI has over the years been continuously responding to the needs of the industry revolution 4.0 diversified into building world class centres of excellence by leveraging world class networks of Technology, Capital and Talent to create sustainable innovative eco-systems in diverse futuristic areas like Aerospace, Electronics, New mobility, Med Tech, Smart Energy, Health to lay the foundation for the 21st Century, Atma Nirbhar India.

Vision: To be Innovative and Futuristic in all Endeavours by Nurturing People, Ideas and Projects, for Creating Sustainable Ecosystems for the 21st Century

INNOVATING FUTURES

EMPI the name **Entrepreneurship and management Processes international** - signifies the changing emphasis on International management thought to **purposes** and **processes**, as also the fading distinction between entrepreneurship and management, with the need today for an entrepreneurial manager. The logo depicts this educational philosophy wherein the red spark and the dot symbolizes the raw energy of bright youth while the arrow symbolizes the channeling of energy for constructive personal and social growth.

(Concept & Design : Pankaj Saran)

EMPI was selected out of thousands of applicants by Niti Aayog, Government of India under their Atal Innovation Mission (AIM) to set-up a first of its kind Atal Incubation Centre. The aim of the centre is to create world-class incubation facilities with suitable physical infrastructure. AIC-EMPI works with multiple stakeholders, to build intelligent ecosystems around entrepreneurs to create scalable and marketable high impact projects, products and solutions across diverse sectors. It works with International Incubation centres, Government, Industry, NGOs in incubating programmes and solutions that shall address high impact problems through venturing. The focus areas are New Mobility, Energy, Health, Agri-Tech, Ed. Tech etc.

You Inspire us to Excel

I greet EMPI for promoting a culture of organizational Innovation. Best wishes to EMPI in their mission.

Dr. A.P.J. Abdul Kalam
President of India

On coming to EMPI and seeing the results of your learning "I am impressed"I am even more impressed to see the spirit with which you work and live together in your campus.

Alyque Padamsee
Advertising Legend

The most effective management is that which assumes the presence of adversity where it does not exist and overcome it when it does. This EMPI philosophy is making the students stress-resistant problem solvers and highly competitive. Following the saying, 'In the confrontation of a mountain and stream, it is always the stream that wins, not because of its strength but because of its perseverance' ...EMPI is becoming a trend setter.

Ajit N. Haksar
Chairman-Emeritus, ITC Ltd.
Founder Patron Chairman, EMPI

While there are many unique and interesting things happening at EMPI, I was very impressed with the Executive Fitness Programme initiative. During my working days, I realised that one thing that IIM-A has not given to me was how to manage stress and physical fitness.

Harsha Bhogle
TV Journalist & Sports Commentator

Excellent ethos at EMPI, I am touched with the focus on ethical perspective of business - such grooming at EMPI is a great step forward. My very best wishes.

S Y Siddiqui
COO, Maruti Suzuki India Ltd.

I really felt the values in the air which has made this institution one of the best institutions in the country. Keep it up. Well done.

Rajeew Karwal
Managing Director, Electrolux

EMPI is a good example of what private sector can do.

N. R. Narayana Murthy
Co-Founder, Infosys

EMPI is a unique institute with a very bright future.

Prof. Udai Pareek
Father of HR Movement in India,
Founder of HRD Network &
Fmr. Prof. IIM-A

Most impressed with the dedication and passion of the faculty and management team. Best wishes!

Kiran Karnik
President, NASSCOM

Great campus and students. Good training and hospitality. Look forward to coming back.

Deepinder Goyal
Founder & CEO, Zomato

Gurukul Learning Environment

Our pedagogy is attempting a balanced mix of 24x7 classroom curriculum, non-classroom learning and on the job work experience to shape the right set of attitudes, skill, knowledge and vision. The unique learning methods include participation in Debates, Quizzes, Elocution, Business Games, Projects, Case Studies, Management Simulation, Organizing of Events, Campaigns, Sports & Games.

India's First Artificial Intelligence (AI) Lab

Centre of excellence for Artificial Intelligence business research, teaching, theory, and practice Powered by IBM AIC-EMPI AI Lab (Artificial Intelligence Laboratory) enables students to navigate the Artificial Intelligence (AI) landscape. The lab assists students, start-ups and industry across the globe with navigating and learning the complex field of application of Analytics and Artificial Intelligence in Management. The lab is equipped with state-of-the-art hardware and software for projects and insights to help businesses make better and faster decisions.

India's First AI lab

Executive Fitness

EMPI's Executive Fitness is a unique programme which commences with the day break. It helps students to internalise leading a disciplined work life through daily participation in choice of activities like yoga, aerobics, taekwondo, multi-gym or other games. This strengthens the students both physically and mentally, which is the key to success in today's stressful world.

Executive Development Academy (Separate Hostel for Girls & Boys)

EMPI has in-campus separate hostels for girls and boys with both AC and Non-AC rooms option. The Hostels can accommodate about 1000 people from not only different corners of the country but also from various countries (in the International Hostel wing). Each room is provided with an attached bathroom with hot and normal 24 hours water supply. Both the hostels are Wi-Fi enabled and have separate Common Rooms, which have facility for indoor games.

Activities on Campus

In the gurukul learning environment of EMPI, students involve themselves in various academic, non-academic, cultural, entrepreneurial & CSR activities. There are various clubs led by students with a faculty co-ordinator to guide them. Involvement in these extracurricular activities helps them to understand the importance of critical thinking skills, time management and academic and intellectual competence. Working outside of the classroom with diverse groups of individuals allows students to gain more self-confidence, autonomy, and appreciation for others. Specifically, participation in extracurricular activities and leadership roles in these activities are positively linked to attainment of one's first job and to managerial potential.

Foreign Faculty

Special lectures, workshops, seminars and sessions taken by visiting foreign faculty from EMPI's network of international partner institutions helps students get prepared for a world that is multicultural and multinational. Students also get an opportunity to do joint classes and projects with students of partnering institutions.

Mr. Piers Grove,
Managing Director, Energy Lab (Australia)

Prof. Margaret Osborne,
Seneca College, Canada

Prof. Kate Combellick,
Fordham University, USA

Prof. Marcia Flicker,
Wharton School, USA

Prof. Richard Colombo,

Prof. Harold Dyck & Prof. Frank Lin,
California State University, SB, USA

Live Projects

Live Projects are a regular and essential feature of the EMPI learning process. It helps them get real life experience and learn the application of the management concepts and principles studied in the classroom. Domain specific live projects helps each student gain valuable work experience even before they are placed.

Amazon India

Ohum Healthcare

BWDIsrupt

Max Hospital

Social Responsibilities

EMPI aims at developing students who are not only good managers but also responsible and conscientious citizens. With this objective in mind students are encouraged to take up various social responsibility initiatives like Blood Donation, Participation in Clean India Campaign (Swach Bharat Abhiyan), Project on Fair Trade, Anti-Smoking Campaigns, Organizing Donations for the poor and the underprivileged, Relief work for flood and landslide victims and other various activities to engage with different sections of the community.

Fair Trade and Microcredit

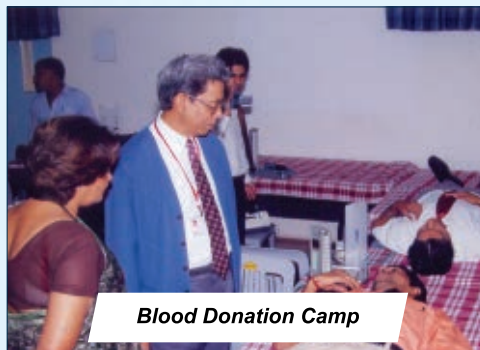

Working with children Smile for Life (NGO)

Think for the 'NEEDY'

Relief work on behalf of Goonj (NGO)

Blood Donation Camp

Swach Bharat Abhiyan

Industrial Visits

Industrial visits are an essential element of EMPI's education as focus on theory and practical is an integral element of the holistic learning process. As such there are regular industrial visits in different industry sectors such as Logistics, FMCG, Consumer Durables etc.

Some of Our Campus Recruiters

An institution where fusion of knowledge, co-curricular activities and practical skills hone the individual's personality to make him a first-class individual. With such a solid start think only of GROWTH in future!

Sandeep Menghi
Business Director, McCann

The perfect adjective to define my experience of studying at EMPI would be 'Enriching' and the experience continues till date, even years after graduating as a student. I'm regularly back on campus every weekend to learn from those sitting on the same benches where once I sat.

Manan Shah
Director-Marketing, Truecaller

EMPI was not only an educating and enriching experience but also worked as a launch pad to the advertising industry for me.

Tanushree Radhakrishnan
*Chief Operating Officer,
LIQVD Asia*

EMPI for me was a start-up experience, we were empowered to do everything on our own with least dependency on faculty. From industry reach to placement pitches and from planning industry tours to summer training scouting. I have done it all. EMPI made me ready to 'walk that extra mile'.

Ram Jalan
*Chief Marketing & Customer
Officer - Omaxe*

Achieving innovation through influence and being passionate about the notion that ideas rule the world are still few of the biggest learnings I received from EMPI Business School. One should always remember that degree is only entry to the profession, after that only your performance matters.

Rajnish Sinha
*Founder and Chief Talent Advisor -
Talent Acceleration Corridor
Ex-Global Head - Talent
Acquisition, Evalueserve*

My learning experience at EMPI was a result of five components that it provides each student with - Resources, Content, Learning Flexibility, Student-Faculty Contact, and Involvement. The foundation was layered with good discipline, a positive and rich culture and constantly pushed me to optimally utilize the resources, with finesse of adapting to the robust reality of the corporate world.

Theme Based Applied Research

International Conference on Technology Policy & Innovation (ICTPI)

EMPI's Centre for Innovation, Entrepreneurship & Intellectual Property (CIEPRO) conducted the global 11th Tier-I conference on Frontiers of Knowledge & Innovation- Blending emerging technologies with inclusive development in collaboration with University of Texas at Austin, Cambridge-MIT Institute, University of Cambridge, TU Delft etc. supported by National Knowledge Commission, Govt.

EMPI's EU-India International Business Management Centre

The first of its kind effort in India supported by the European Union established a triangular research corridor with the University of Turin, Italy and the Helsinki School of Economics and Business Administration, Finland. The Centre was supported by Fiat and Nokia and facilitated joint study of doctoral students and faculty researchers in the area of cross cultural entrepreneurship

EMPI partners with Wharton School, USA for the GLOBE Programme

EMPI has been the country co-investigator of the worldwide research programme on international CEOs under the GLOBE programme of the Wharton School, US. The project in India was headed by Mr. Pankaj Saran. As an extension of the study, the difference of IT Strategies between Indian and China was also studied which was partnered by the City University, Hong Kong. The study led to a worldwide publication by the famous Ashgate Publisher, UK.

Asian Media Information & Communication Centre, Singapore

EMPI has a major tie-up with AMIC Singapore, an internationally renowned Asian umbrella body on Communication and Media with regional chapters spread all over the Asia-Pacific. EMPI has very closely collaborated with the Indian chapter of AMIC, Singapore which is headed by Dr. M. S. Swaminathan and has Mr. N. Murali of Hindu as well as Mr. Vijay Menon amongst others distinguished personalities on its board. EMPI and AMIC have conducted joint projects on a number of areas including e-governance, UNESCO's International Programme for the Development of Communication, Economic Journalism etc.

UNDP Consultancy by EMPI's Udai Pareek HR-LABS

HR LABS of EMPI B-School provided consultancy to UNDP for their modules on human development in the area of pedagogy, i.e methodology of teaching these modules. HR -LABS examined the modules in details and suggested various pedagogical devices to be used in different places. Various interventions were suggested to generate experiences while teaching the modules.

National Impact Initiatives - India's Firsts

Mission Innovative India

In 2005, EMPI initiated the annual Indian Innovation Awards under the "Mission Innovative India" with the blessings of the then President of India, Hon'ble Dr. A.P.J. Abdul Kalam. The following year, The Boston Consulting Group joined in as the Research Partner and Process Validator and the awards were re-christened as the 'EMPI-Indian Express Indian Innovation Awards' with the joining in of the leading national newspaper group - The Indian Express. The awards celebrate innovative corporate, non-corporate, government and network organizations as role models by documenting and disseminating their innovation stories.

In pursuant of the Innovation Mission, EMPI has furthered a number of initiatives like the launching of the EMPI Journal on interdisciplinary perspectives - 'Innovations', conducting jointly with the prestigious India International Centre, New Delhi, lecture series on the 'The Change agents - Innovative Indian Organizations', National Innovation Fellowships and introduction of the 'International India Innovations Programme' for international faculty, researchers and students.

We Think for India (WTI)

EMPI conceived and structured India's first participative Public Policy Forum, 'We Think for India' (WTI) under the chairmanship of Justice Ranganath Mishra, Fmr. Chief Justice of India; Dr. RA Mashelkar, Fmr. DG, CSIR; Mr. Vittal, Fmr. CVC and Mr. LV Saptrishi, Fmr. Addl. Commerce Secretary, GoI. It held India's first Manufacturing sector policy competition along with FICCI that had widespread participation from IITs, IIMs, Consulting Firms like KPMG and Corporates like TATAs, BHEL etc. The findings as a book on 'India's Manufacturing Sector – Policy Framework' was released by Hon'ble Prime Minister Shri Atal Bihari Vajpayee at his residence and presented to Shri. Arun Jaitley, the then Minister of Law, Commerce and Industry, Govt. of India. This was the first time a de-centralized policy initiative was done that impacted a national policy discourse.

Hon'ble Shri. Atal Bihari Vajpayee, Prime Minister of India giving the award to IIT Delhi, one of the winners

New Clean & Intelligent Mobility Mission Festival

(In Association with Ministry of Road Transport & Highways, GoI and NISSAN as Mission Partner)

EMPI Institutions conducted India's first Mobility Mission Festival at the EMPI Campus. The event witnessed an overwhelming response pan India and Internationally. The festival brought together students, start-ups, MSMEs and corporates to address the future mobility disruption paradigm. The festival synchronised with the Inauguration of EMPI's Atal Incubation Centre by Mr. Ramanathan Ramanan, Mission Director, AIM, Niti Aayog, GoI.

Inaugural Speech by President, EMPI

Group Presentation

E-Vehicle Expo

Display of E-Vehicle made by Students

Panel Discussion by Mobility Experts

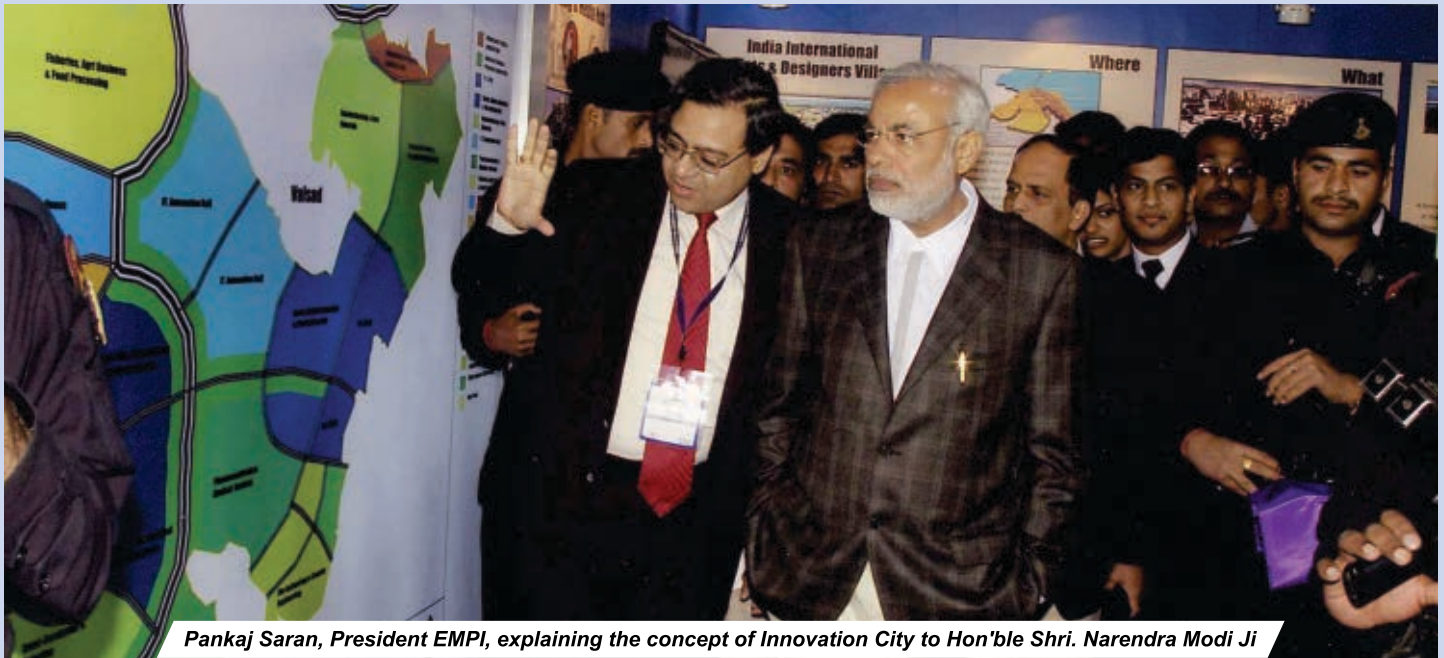

Award Presentation

Innovation Clusters – Cities & Parks

For the first time in India, EMPI Institutions conceived, incubated and is now implementing India's first innovation clusters, in Gujarat and in Greater Bangalore. The two Projects structurally integrate High-Tech Industry, Academia and world-class Community and are joined in by the State Governments of Gujarat and Andhra Pradesh with International participation from the Governments of other High-Technology Innovation Parks such as Korea, Germany, Taiwan, etc. EMPI as the consortia leader has structured the Projects through separate entities and is providing the lead for Education, Skill Development, R&D and Innovation Incubation. The Andhra Project, 50 minutes from the Bangalore Airport, has been christened as the Andhra Pradesh Aerospace & Defence, Electronics Park and aims to be India's pioneering Science park. The Project is led by Padma Bhushan Mr. N. Vittal, enabler of India's Software & Telecom revolution.

Pankaj Saran, President EMPI, explaining the concept of Innovation City to Hon'ble Shri. Narendra Modi Ji

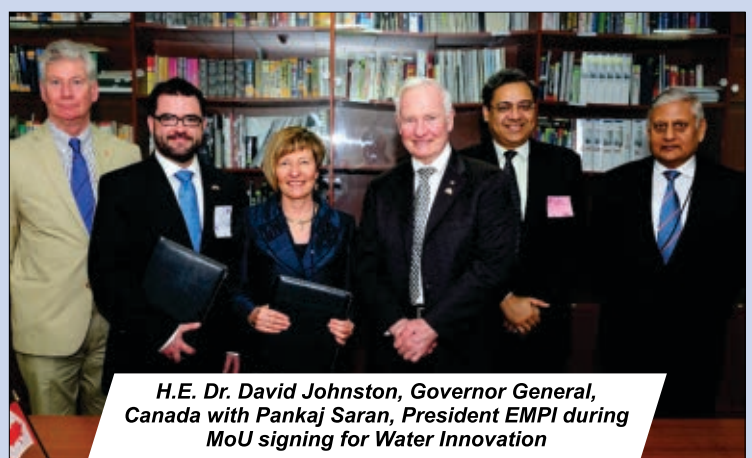

MoU signed in the presence of Hon'ble Shri. Narendra Modi Ji for collaboration with Korean Government
